BANK STATEMENT.

Increases in Cash and Surplus Reserve. The weekly statement of the Clearing House banks made a showing almost exactly the exhibited a gain in that item of over \$5,000,000. The expansion of \$7,685,500 in the loan account, on the other hand, was regarded as a rather surprising circumstance in view of the heavy liquidation which has taken place in the stock market during the week. The net result of these changes proved to be favorable, however, and the surplus reserves of the banks showed an increase of \$2,095,650.

The weekly statement of averages of the Associated Banks of the (ity of New York compares as follows with that of the corresponding week a year ago:

This week. Last week. Last week.

of the largest supply, we note the three crops, 1902, 1903, 1904, were 2.014.287.000, and 605.926.000 in excess of the production in the three years preceding them. The crops of the world were ample and sufficient in years 1899, 1900 and 1901, and were lower priced than obtained on the much larger crops since. Returning to the crops of Russia, the production in that country is about one-third winter wheat and two-thirds spring. This is well to consider when regarding any winter damage. Russia is able to spare so much wheat because its population largely lives on rye. The rye crop is around 900.000.000 bush. each year. The domestic crop of wheat may reach 50.000.000 acres for harvest, but we think this rather optimistic. Yields on harvested areas haveranged on the entire crop from 10.4 to 13.3 bush. per acre. Average yield is 13 bush. per acre. The present outlook suggests to us a crop this year of 650.000.000 to 750.000.000 bush. with the probabilities more in favor of mitigation than enlargement. With low reserves the supply is not indicated to be very burdensome in the season ahead. It might not pay to get too bearish because the scenery is office at this time.

Corn and oats were rather firmer but not at all active. Country acceptances of corn were small, and the fact that Chicago's receipts were a little larger had no particular influence.

COTTON AND COFFME.—The exchanges were closed.

culture to-day that the boll weevil has already made its appearance on young cotton plants in this part of the State. It is feared that the pest will cover a greater area of the cotton growing region and do more destruction to the crop this year than ever before. An increase of the cotton acreage in Texas is reported, notwithstanding the losses sustained by the boll weevil last year.

Supreme Court of Montana Ends Seven Years' Copper War, over the \$10,000,000 Minnie Healy Mine,

The Supreme Court of Montana, the highest court of the State, settles the seven years' Copper War over the \$10,000,000 Minnie Healy Mine definitely in favor of Heinze's United Copper Company, thus adding that much to the assets indisputably belonging to the United Copper Company. This litigation has cost both sides millions of dollars and has divided the people of the State of Montana and its Legislature for years into two great bitter political camps, involving charges of blackmail and of political and judicial corruption never before equalled in the history of the country. This final decision of the Court of Last Resort has now resulted in the most brilliant vindication of F. Augustus Heinze and his United Copper Company.

Other matters of great importance will take place shortly, of which the public will be duly advised.

MARCONI WIRELESS TO ENGLAND

Mr. Marconi is now at Glace Bay Station, in Canada, where he will remain long enough to install his new high power apparatus, which will insure uninterrupted communication across This will enter fitte a first exempetition with the sevaral cable companies at a toil of ten cents per word. This transatlantic service, when inaugurated, will earn an enormous amount of money for the Company.

Marconi certificates have advanced in price within two years 100 per cent. With the wonderful progress and development to be made by the Company from now on, the securities will advance rapidly. You can find no better investment than to place your money in Marconi Securities. Bear in mind, that the shares of the English Marconi Company have advanced from \$5\$ to \$22. The American Company has a field of broader scope and its securities should eventually sell at a figure representing a greater advance than that already witnessed in the shares of the English Company.

Write at once for prospectus and full partic-

pany pany write at once for prospectus and full partic ulars and booklet entitled "The Financial Aspect of the Marconi Investment." Address all communi-cations and remit to F. P. Ward & Company.

RIDGELY'S FORECASTS.

If any one who reads my Dally Letters was caught long of stocks, he cannot biame me. I stated a week ago that U. P., Paul, T. C. I. and Amal. Coppermore, that the market as a whole was around top and that there would be a big break toward the end of month. The one specialty, which I named to buy, has not gone down. Everything else has immediate fluctuations are uncertain; but that the buil campaign is over is certain. That fact I have endeavored to make clear to Subscribers for a week past. I don't advise the acrifice of long stock and short sciling on breaks, for bear markets do not go straight down. There will be plenty of rallies to seil on, but I cannot tell you here when the rallics will come, or how far they will extend, or the best stocks to get short of; you should not expect it. To morrow's Letter gives that information, and names one stock that will break 30 to 40 points. Also a Specialty that will advance irrespective of the general list. Terms for Dally Letter, 35 per month.

A. N. RIDGELY, 20 BROAD ST., N. Y.

Stocks, Bonds, Orders solicited, large or small amounts, in all markets, for cash or on margin. Write for a copy of our 400-page lliustrated "GUIDE TO INVESTORS" AND "DAILY MARKET LETTER," issued gratis and mailed free.
